

Hard Rock, Cancun

By "Commodore" Camille Pepe Sperrazza

It's not too late to become a rock star!

There's a hot tub in your room; food and drinks flow; and the exceptional staff at the **Hard Rock Cancun** can't do enough for you.

Welcome to the party that never ends.

If you can tear yourself away from the most mesmerizing blue ocean and white sand beach, you can actually star in a professionally made video, lip-synching and playing musical instruments to your favorite rock song. This is no amateur karaoke session. Professionals are brought to the resort to take 45 minutes of close-ups and long shots, featuring you - in costume - rockin' to your favorite song, guitar and mike in hand. About 28 days later, you'll get a link to an expertly-edited video that puts all your other vacation home movies to shame.

There is no charge for this venture into stardom, and it's just one of several ways the Hard Rock incorporates music into your vacation, differentiating itself from the competition.

Yet, if you simply want an all-inclusive beach getaway, you've come to the right place because you can spend all day basking in the sunshine, in a setting that's gorgeous. There's always chicken, steaks, burgers, fish, and more cooking on the outdoor grills; crisp pizza prepared in the outdoor brick oven; bars and swim-up bars with top-shelf booze; tons of guacamole, salsa, and colorful chips. You never have to move from that lounge chair because the staff will bring it all to you. You don't even have to ask.

Don't miss: Fresh seafood ceviche, made to order, poolside, at 3 pm daily; the Margaritas because they are only this good in Mexico; and any drink you can get that's served inside a fresh pineapple. Don't forget to scoop the pineapple walls when the drink is gone - yummy!

In the evening, there are surprisingly good shows in the stadium-style open-air arena that contains a stage and two large screens that show video clips. Smoke machines, special lighting effects, a modern sound system, and enthusiastic performers get the crowd

pumped.

Dine at Italian, Mexican, Japanese and Brazilian restaurants. Or, enjoy the nightly outdoor buffet, and eat under the stars, often serenaded by live music.

Day or night, party at the Smash Bar, surrounded by guitars that have christened Hard Rocks round the globe, photos of legends, and lots of rock n roll memorabilia.

The resort is located in the heart of the Cancun hotel zone, about ten minutes from the airport. If you want to leave the premises, a bus stops right in front, transporting you to shopping centers, restaurants, and bars, for a \$1 each way.

This is a family-friendly resort, so there are planned activities to keep little rockers busy, too.

Guests at Hard Rock receive up to \$1800 in resort credits that can be used to book tours, enjoy spa treatments, or to make purchases at certain gift shops. A 20 percent service fee must be paid to the resort when using these credits.
